

CARIBBEAN VOCATIONAL QUALIFICATION
MOTOR VEHICLE ENGINE SYSTEMS LEVEL 1
ACTIVITY SHEET

ASREMS0011A: Prepare for general servicing/repairing of motor vehicle

Doing Service checks on vehicles

INSTRUCTIONS:

- Take 75 minutes to complete the following assignment
- Read and follow the instructions in each question carefully
- Once you are complete check your responses to the Answer Sheet.
- You may go back to the presentation to determine where you may have gone wrong.

1.

- a) In your own words define preventative maintenance.
- b) Describe the two main types of preventative maintenance checks

2. Why are maintenance checks necessary?

3. A customer comes to your garage indicating that the oil light is “on” in the instrument panel. Your supervisor ask you to do a check under the bonnet. You are required to create a checklist for under the bonnet.
