Curriculum Topic: Reading Fluency Standard 1

Teaching Point/s: Read the passage at least three times. As you read:

- pay attention to punctuation
- read with expression
- try not to read too fast or too slowly
- try to pronounce the words correctly
- ask for help if you don't know the word
- If you have difficulty with a word, use the **Decode IT Read IT** strategies

Practise! Practise! Practise!

Decode It! Read It!

1. Sound. Blend. Read

/b//r//ai//n/ or /br//ai//n/

. . . .

2. Chunk it

savannah sa/**van**/nah

3. Break it up. Blend and Read

discover - dis/ cov/ er

4. Flip the vowel sound

discover-

dĭs/ cōv/ er 

dĭs/ cŏv/ er 

5. Root Words/Beginnings/Endings

reconnects

re CONNECT s

Activity: Individual Oral Reading

Butterflies and Bees

Butterflies and bees have many things that are similar. They are both insects. They both have four wings. They drink nectar from flowers. There are some things, however, that are different between these two insects. Butterflies have brightly coloured wings. The wings of a bee are clear. Bees live in large groups, but butterflies live and fly alone.
