- **Brainstorming**- Now that you have seen some examples with information, you need to brainstorm ideas to make your poster. This means thinking about different ideas (about 3 – 4), writing or drawing them and then choosing the best one.

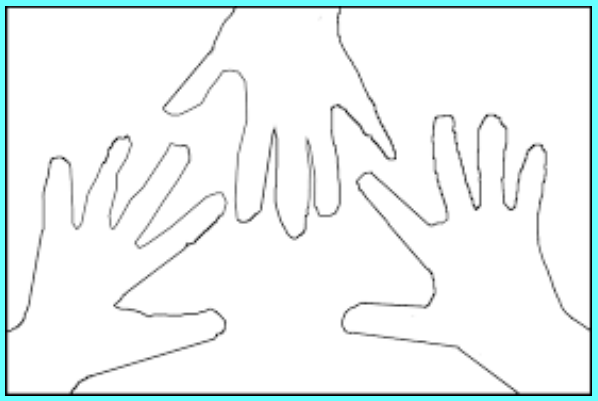

Let's begin!

- **Making the poster**
  - ***Step 1- Draw the outline of hands***

    On your paper, place your hand with fingers open and palm flat and draw the outline of your hand.

    You can do this several times, like this:

    You can change the directions or positions of the hands. Remember, you can do anything ***YOU*** want for ***YOUR*** poster.

  - ***Step 2- Making hands happy***

    Add happy faces to your hands. Look at the examples on page 1.

    Look at these happy faces.

    Draw happy faces on your hands!

- ***Step 3-Adding information***
  Using the information you wrote from the Ministry of Health's poster, add the information to ***YOUR*** poster.
  You can use coloured pencils, make sure your handwriting can be understood.

- ***Step 4- Decorating your poster***
  Using your crayons, coloured pencil or even paint, colour and decorate your poster.
  Let your poster look colourful with information that can be easily read.

- **Another method of poster making on CLEAN HANDS**:
  Here's another method you can use to make your poster.
