ANSWERS
INFANT 2 TERM 3
STRAND : STATISTICS
TOPIC : Picture Charts and Pictographs
KEY POINTS : Collect, display and analyse data to solve real-world problems, Demonstrate an understanding about the features of graphs, make decisions based on data.

1.

a) There are 5 tomatoes.

b) There are 4 eggplants

c) There are 2 bananas

d) There are 6 carrots

e) There are 3 ochroes

2.

Picture Chart: Mr. John's Vegetable Stall

Ochro						
Carrots						
Bananas						
Eggplant						
Tomatoes						

3. Which fruit or vegetable does he have most? Why do you think so?

He has the most carrots because he sells more carrots than the other fruits and vegetables.

(Note: students can give varying answers but with justification e.g. he plants/ buys more carrots)

4. Which fruit or vegetable does he have least? Why do you think so?

He has the least bananas because he sells less bananas than the other fruits and vegetables.

(Note: students can give varying answers but with justification)
