

Cultural Diversity

Introduction: The Caribbean is a culturally diverse region, colonization, slavery and indenture, labour systems in the post emancipation period has led to a plethora of cultures and ethnic groups in the Caribbean.

Caribbean culture: different cultures existing in the Caribbean

Cultural diversity has both positive and negative effects. The main ethnic groups such as the Africans, The Whites and The East Indians all came with different aspects of their culture. As such the Caribbean will comprise cultural differences. A more in depth analysis of cultural diversity is posited by Rex Nettleford, who commented that Caribbean culture is too diverse to be labeled. [Click Here](#) to read more about culture. Cultural diversity manifests itself in food, music, and festivals such as Carifesta. From the onset of the Europeans and the colonization process, the Caribbean became a diverse place Campbell points out in her article. [Click Here](#) for more information
