

# Definition of Concepts and Indicators of Development

**Introduction:** As we proceed further into the 21st century, it becomes increasingly essential to monitor and achieve sustainable, human and economic development. These notes will look on what does these concepts actually mean.

## WHAT IS SUSTAINABLE DEVELOPMENT?

**SUSTAINABLE DEVELOPMENT**

- Sustainable development is a process for meeting human development goals while maintaining the ability of natural systems to continue to provide the natural resources and ecosystem services upon which the economy and society depend
- In other words Development that meets the needs and aspirations of the current generation without compromising the ability to meet those of future generations
