

THE OBJECTIVES AND IMPACT OF CARIBBEAN INTELLECTUAL THOUGHT.

Caribbean intellectual thought emanated out of the fact that the colonized did not have a voice , and once they were given a voice , they used the language of the colonizers to create independent thought that was very much against the harsh regimes of metropolitan countries. Some of these were slavery and the fact that the role of women was defined by a masculinist based society . Perspectives such as Pan-Africanism , Rastafari, and indigenous perspective not only engaged in revisionist history but highlighted the fact that ones identity was not defined by what a group or country imposed on you, but how you saw yourself.

Caribbean intellectual thought: independent in its objective and scope.
