

# Systematic Enquiry

**Introduction:** Systematic enquiry is the process of searching for knowledge and information about a problem. However, it is not as simple as it may sound. Systematic enquiry is a rigorous method used in carrying out a research and arriving at a validated conclusion. Below are some graphs illustrating the steps in which it is carried out.

Have a question that requires some investigation? Well, the process/method of arriving at a such an answer is referred to as systematic inquiry!

# Systematic Inquiry Cycle
