

Newspapers

Newspapers do more than just report the news, while reporting of the news is their primary function. They also provide information on issues such as crime, various economic trends and political events on the local and global scene . Most newspapers are connected to a country or region, for example the Jamaica Observer, or the Trinidad Guardian or the Daily Barbados . Newspapers; more than just news.

In addition to having information on key issues , newspapers often have editorials or features by experts in the field of science , art and politics. Most newspapers are also available online to view, even though some newspapers limit the amount of articles you may view per month if you do not have a paid subscription to them . If there is a serious societal issue , it is very likely to be in a newspaper in your region . For a link of all of the newspapers in the Caribbean , [Click Here](#)
