Political and Economic Causes of Emancipation in the Spanish West Indies

- No significant humanitarian movement emerged in the Spanish American Empire
- **Political** factors which led to abolition included
 - By the 1860s **British pressure** forced the Spanish to honour its 1819 agreement to end the slave trade
 - **Lincoln's 1863 Emancipation Proclamation** ended Spanish reliance on American ships to transport captured Africans to Cuba and Puerto Rico which created a **severe labour shortage** in the Spanish colonies
 - **Amelioration** gave the enslaved a greater sense of their rights as persons and made them less reluctant to work for free
 - The **Ten Years War** for Cuban independence, 1868 – 1898, led by **Carlos Manuel de Céspedes** and **Antonio Maceo**, which in part demanded the abolition of slavery, ended in the passage of the **1870 Moret Law** granting immediate freedom for those less than 2, more than 59 and those who fought for freedom and the **Patronato** which enslaved all others until **1880**

Economic Causes of British Abolition- Capitalism and Slavery

- Eric Williams shaped this **economic explanation** of slavery abolition in his Oxford PhD dissertation of 1938 published in 1944 as *Capitalism and Slavery*
- It undermined the **thesis of humanitarianism declaring that morality and compassion** were **peripheral** to abolition
- He insisted that the role of the 'saints' was "**misunderstood and greatly exaggerated**"
- He demonstrated that West Indian enslavement by the 1770s
 - enriched Britain
 - financed the British industrial revolution
 - was a spent force by the end of the **18th century** with **American independence**
 - colonies were now viewed as **obstacles** to the British economy- (overproduction, soil depletion, competition) which convinced Britain to dismantle enslavement
- Later writers **rejected** the William's thesis

Criticism against *Williams'* Economic Explanation for Slavery Abolition

- **G. R. Mellor** - *British Imperial Trusteeship 1783 – 1850* – If only incidentally, Williams' **misused and distorted evidence** and the **style** of his writing was **non traditional**
- **Anstey Roger** – *Capitalism and Slavery: A Critique* – parts of Williams' **arguments are not well supported** especially the view that Pitt's attitude to abolition waned when St Dominique was no longer a formidable economic competitor
- **Seymour Drescher** – Britain did not abolish the slave trade when the enslavement system was in decline but when it was in its prime thereby committing **economic suicide**
- Yet Williams' economic explanation has defined and continues to **define subsequent publications** on the emancipation

Slavery Abolition

Socio/Political Causes-**Revolutionary** Emancipation

- Enslaved people throughout the Caribbean **continuously** fought against slavery in many ways

1. **Day to Day Acts of Resistance**
2. **Marronage**
3. **Revolts**
4. **The written word**

Revolts – the most Dynamic Form of Enslaved Resistance

- Tacky's Revolt 1760 Jamaica
- Cuffy's Revolt 1763 Berbice
- The Haitian Revolt 1791
- Barbados Revolt 1816
- Demerara Revolt 1823
- Jamaica Revolt 1831

Impact of servile revolts on slavery

1. Interrupted plantation **production**
2. Undermined the **labour force**
3. Interrupted and reduced **trade**
4. Destroyed plantation **property**
5. Damaged **investor confidence**
6. Resulted in **abandoned plantations**
7. Brought a complete and immediate end of colonial rule and slavery in **the first black republic** of the western hemisphere - Haiti
8. Prompted British abolitionists to argue that if slavery was not abolished by **law**, it would be abolished by **war**
